- **Clearly prints on any type of poly material**
- **Easily change your typesets**

More Details:

DY-8P is a lightweight and easy to use hot stamp imprinter. Use this imprinter to print expiration dates, manufacturing codes, lot numbers, and much more! DY-8P can print on poly bags, poly cases, paper bags, aluminum, or other materials. This imprinter provides a clearly printed stamp on your material. Ink dries as soon as it is printed leaving no mess behind. Characters are easy to change.

Imprinter Includes:

Numbers (0-9), 1 set each of "LOT", "EXP", "MFG", 2 open spanners (5.5-7mm and 8-10mm), and a cross-line screwdriver (for full list, please ask us.)

Additional typesets (A-Z), individual letters, number typesets (0-9) and ribbons (black, blue, red, and white) are available.
