

Great value to quickly print lot codes

- Portable, tabletop model
- Semi-automatic or manual modes available
- Easy to operate
- Option: Four line imprinting

More Details:

The HP-280 semi automatic tabletop imprinter is the perfect unit for anyone looking for an affordable imprinter that is quick and easy to use. The HP-280 imprinter uses colored imprinting ribbon and prints clearly on any soft packaging materials. The resulting imprint dries instantly and works great in humid environments. In the semi-automatic mode, the printing speed can be set with a control knob and ranges from 20-70 imprints/minute. In the foot-operated mode (manual), imprinting can be controlled with a foot switch. The imprinter is equipped with horizontal and vertical guides. Ribbon up to 35mm can be used. Pressure of the imprints can be adjusted easily. The HP-280 can print up to 3 lines of imprint with each line holding up to 14 characters.

Imprinter includes: 1 roll of ribbon (30mm x 110 yards), 3 sets of number typesets (0-9), 1 set of "LOT", "MFG", and "EXP" typesets, and additional spare parts.

Additional alphabet typesets (A-Z), individual letters, number typesets (0-9), and ribbons are available for purchase. Letters and numbers are 4mm x 2mm (H x W). Available ribbon colors: black, red, blue, and white.
