

Quickly print lot codes and expiry dates

- Easy to operate
- Adjustable feeder tray to accommodate different material sizes
- Fast dry ink roller allows for clear, smudge resistant long lasting printing
- High throughput at 300pcs/minute
- Send material for testing before purchasing

More Details:

MY-380F/W is a dry-ink coding machine ideal for printing labels or pouches. The imprinter can print on paper, non-porous plastic film, and aluminum foil. MY-380F/W uses a cantilever type mechanism which is light and precise. The horizontal printing position is controlled by an electronic device that can easily be adjusted as needed. The object to be imprinted is selected by the machine's sensor. The machine also has a unique stepping clutch and produces very little noise. MY-380F/W is also equipped with a working tray (not shown) to collect imprinted items.

MY-380F/W is equipped with a fast dry-ink roller printing clear characters that are smudge resistant. Color choices include black, red, yellow, and white. Typesets are easily changeable. Imprinter is equipped with a printing roller that can be used for both T and R arrange of types. Typeset included is T-typesets. R-typesets must be purchased separately. For typesets in T arrange, machine can print 1-10 lines with 1-10 characters per line. For types in R arrange, machine can print 1-8 lines with 1-8 characters in each line. Typesets included are 2 sets of numbers 0-9, 2pcs each of letters M, F, D, L, O, T. Additional typesets are available for purchase.

Before ordering, material MUST be sent into for testing.
