

Dual heat for sealing thicker materials

VV-305T is a medium duty vacuum packaging machine that is easy to operate and practically maintenance free. Ideal for packaging all moisture barrier bag materials including coffee bags, tea bags, gusseted bags, and mylar. This sealer is also equipped with two sealing bars (top and bottom) for greater heat penetration when sealing thicker materials. A work table is also included.

Ships via LTL freight only.

Standard Features:

- Impulse seal
- High flow stainless steel retractable nozzle
- Easy set-up using only compressed air and a standard electrical outlet
- Controller with 20 programs – flushing and count functions
- Non-oil filling Italian pump
- Angle working table for easier packaging
- Metal construction
- Ease of operation
- Fitted with emergency stop
- Pouch materials = Aluminum foil, OPP Films, Nylon, HDPE, LDPE, and Laminated films

Options:

- Stainless Steel construction
- Table Stand
- Gas Flushing
- 10mm Seal Width for 18” and 24”
